## Professional Summary

Results-driven Java Developer with 2.7 years of experience in designing, developing, and maintaining robust backend systems. Proficient in **Java**, **Spring Boot**, and **RESTful APIs** with a strong focus on building scalable, secure, and high-performance applications. Demonstrated ability to collaborate effectively within Agile teams to deliver high-quality solutions. Seeking to contribute technical skills and experience to a forward-thinking organization.

## Technical Skills

**Languages:** Java, SQL

**Frameworks:** Spring Boot, Hibernate, Spring Data JPA

**Databases:** MySQL, MongoDB, HBase

**Tools:** Maven, Git, Postman, IntelliJ, Eclipse

## Work Experience

### Infosys

Backend Developer

June 2022 – Present

**Project 1: Max Life Insurance**

Role: Java Developer

**Skills:** Java, Spring Boot, MongoDB, AWS

- Developed and maintained scalable backend services for insurance systems.
- Collaborated with front-end teams to ensure the APIs aligned with user interface requirements and provided necessary data.
- Designed and developed APIs that enable smooth communication between various microservices in the insurance system.

**Project 2: GST**

Role: Java Developer

**Skills:** Java, Spring Boot, MySQL, HBase

- Improved database performance and optimized queries for large-scale datasets.
- Actively participated in Agile ceremonies, including sprint planning, retrospectives, and daily stand-ups, to ensure alignment across the team.
- Developed and maintained RESTful APIs, enabling seamless integration with front-end systems and third-party services.

## Education

MSc in Computer Science with 80%

BSc in Computer Science with 81%

Asian College of Science and Commerce, 2023

H.V. Desai College, 2021

## Additional Information

Strong problem-solving and debugging skills. Excellent collaboration in agile teams.

Passionate about continuous learning and staying up-to-date with industry trends.
